ChargeGuard® Simple Access Control for HCS Series

\$78.00

The ChargeGuard® Access Control Option is an affordable, key-based access control solution designed for fleet, workplace, multi-tenant, hospitality and residential charging applications.

Note: HCS models with ChargeGuard are built to order and have a standard lead time of 1-2 weeks.

Cable Cradle, EV Charging Station Cable Holder, Wall Mount

\$19.00

The ClipperCreek Cable Cradle mounts to a wall near your electric vehicle charging station or connector holster to easily manage the cable, keeping it off the ground and wall when not in use.

SAE-J1772™ EV Charging Station Connector Holster, Wall Mount

\$19.00

This wall or pedestal mount SAE-J1772™ connector holster provides excellent protection from the elements. Simple to install and durable.

Retractor for Charging Cables, Wall Mount

\$375.00

The Wall Mount Retractor from ClipperCreek is the ideal solution for sites that need cable management and pairs well with any ClipperCreek wall mounted charging station. Extension Kits are available for pedestal mounted charging stations.

CP-50 EVSE Tester

\$250.00

The CP-50 Compact EVSE Tester from ClipperCreek is the perfect tool for installers to test a Level 1 or Level 2 EVSE (SAE-J1772™ connectors only) installation without a vehicle present.

The CP-50 can function as a stand-alone device or in combination with a DVM (Digital Volt Meter) and/or oscilloscope to verify operations and troubleshoot an EVSE. The CP-50 is designed for use with ClipperCreek EVSEs, and is compatible with most other makes and models of SAE-J1772™ EVSEs on the market.

GFCI 120V Outlet Kit

\$85.00

This 120V Ground Fault Receptacle Kit can be used with any ClipperCreek pedestal or mounted on a wall. Up to two outlets can be installed onto each pedestal. The kit includes:

- Plug, Knockout Bushing, 1.109" OD, 3/4" Trade Size Aperture
- GFCI Ground Fault Receptacle, 15A, 125V, NEMA 5-15R, Single Socket with Switch
- Gang Box, Single, Silver Metal
- Weatherproof Receptacle Cover, Clear, Single Gang, 2-3/4" Depth

SAE-J1772™ Combination Lock

\$5.95

This combination lock provides an easy way to lock the connector head of any ClipperCreek charging station with the lockable SAE-J1772™ connector. Prevent unwanted use of the charging station by locking into the Connector Holster or prevent interrupted use by locking the connector head into the vehicle's inlet.

HCS Travel Bracket

\$24.95 or Two for \$40.00

Mount a plug-in HCS charging station to this stainless steel bracket and easily remove for travel or moving. Consider a bundle of two if there is a need to mount the HCS at a secondary location. No need for tools to remove or re-mount the station.

Note: Charging Stations and Accessories sold separately.
