

HCS Dual Charging Station

\$1349 HCS-D40

CHARGE TWO ELECTRIC VEHICLES WITH ONE CHARGING STATION, ONE CIRCUIT. ClipperCreek's HCS Dual Charging Station, the HCS-D40, automatically splits power between two vehicles based on the vehicle's request for power. The HCS-D40 provides up to 16 Amps to each vehicle when two are charging and up to 32 Amps when one vehicle is charging. The HCS-D40 is economical, maximizes existing electrical infrastructure and can be wall-mounted or installed with one of ClipperCreek's free standing pedestal mount options.

- **FAST CHARGING** - 7.7kW of power to charge your vehicles quickly
- **ADVANCED** - Double vehicle charging capacity without infrastructure upgrades
- **CONVENIENT** - Two 25' charging cables for installation flexibility and superior vehicle reach
- **DURABLE** - Rugged, fully sealed NEMA 4 enclosure for installation indoors or outdoors
- **RELIABLE** - Backed by ClipperCreek's best in class warranty and outstanding customer service
